

# THE RACK – ENERGY ROTATION SYSTEM

## HEATING ONLY

## Most Energy Efficient & Consistent Heating System on the Market

*Guarantees ENERGY SAVINGS while maintaining consistent BUILDING TEMPERATURE*

## FEATURES & BENEFITS

### FEATURES:

- High Energy Savings
- No loss of Floor Space
- Maintain Consistent Building Temperatures
- Multi-tenant Compatible

### PERFORMANCE:

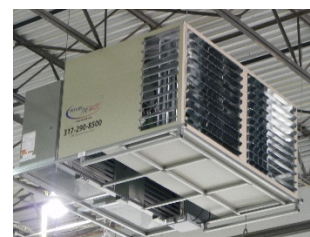

- 9,000 – 50,000 CFM
- 200,000 – 800,000 BTU
- Up to 10,000 CFM of Fresh Outside Air
- Over 100,000,000' Heated

### HEATING SOURCE:

- MODINE Unit Heaters
- Stainless Steel Heat Exchanger
- 82% - 97% Efficient
- 100,000 – 400,000 BTU

### SAVINGS:

- Indiana's Most Rewarded HVAC System
- Awarded over \$1,500,000 in Incentive
- Over 3,300,000 therms saved
- Average Utility Savings of \$.19/sqft

# THE RACK – ENERGY ROTATION SYSTEM

## TOTAL BUILDING HVAC SYSTEM

### Most Energy Efficient Total HVAC System Available

*Guarantees ENERGY SAVINGS while maintaining consistent BUILDING TEMPERATURE*

## FEATURES & BENEFITS

### FEATURES:

- High Energy Savings
- Low Maintenance
- Maintains Consistent Building Temperatures
- Combination Heating and Cooling

### PERFORMANCE:

- 9,000 – 50,000 CFM
- 200,000 – 800,000 BTU
- Up to 50 Tons of Air Conditioning
- Over 20,000,000' Heated/Cooled

### CONDITIONING SOURCE:

- MODINE Unit Heaters
- Ground or Roof Mounted AC Units
- Heat in RTU or Unit Heaters
- Top or Back Discharge

### SAVINGS:

- Indiana's Most Rewarded HVAC System
- Awarded over \$2,000,000 in Incentives
- 25% Reduction in Tonnage Required
- Average Utility Savings of \$.22/sqft
